

Sandigan orders 90-day suspension of Samar governor

By Jocelyn B. Uy

THE SANDAGANBAYAN HAS ORDERED the suspension of Governor Milagros Tan for five and four other provincial executives who are all facing eight graft cases for the allegedly irregular purchase of some P16 million worth of supplies seven years ago.

In a July 11 resolution, the anti-graft court's six Division Director General Secretary Rosendo Puno Jr. immediately placed the Samar officials in a 90-day suspension.

Included in the suspension order are Richard Limingo, provincial administrator; office, Rufino Ruelas, accountant; Maximo Sison, budget officer and Francisco Legaspi, property inspection officer.

The court said that under the law, a suspension does not require prior establishment of guilt or strength of evidence.

The prosecution stressed that suspen-

sion becomes mandatory when the anti-graft court found the charges against the officials sufficient "in fact and substance."

The Office of the District Prosecutor filed the eight graft cases in 2001 for the purchase of goods, including electric fans, medicines and rice, within public building, from December 2001 to December 2002, or during Tan's first term.

The accused officials denied the "unexplained purchase" of relief goods for the victims of typhoon "Hilang" in December 2001 as an excuse for not holding a bidding, said the anti-graft body.

But a Commission on Audit report later maintained that the funds used, as approved by the provincial council, were actually allocated for victims of an earlier typhoon, "Nanang," which hit Samar in November 2001.

The court in previous cases to junk the charges, which the accused as "defendants" in any case had based mostly on a receipt.

It also claimed that the public would be deprived of the services if the suspension.

But the court found her charges

"untenable," saying that the law made mandatory in graft cases the suspension of accused public officials to prevent them from

impeding the prosecution by influencing witnesses or tampering with documentary evidence.

Masbate clashes initiated by gov't troops – Yano

By Alvin Papa

TROOP CONFLICTS between government troops and communist rebels in Masbate yesterday resulted in a clash in the province by President Duterte through the use of a small number of government troops in the area, and not a reflection of effectiveness, according to the small forces of the Philippines (AFP) chief of staff Gen. Alexander Panaligan. Panaligan said reports indicate that the situation at least was "improved" after the military increased its deployment in the province from 120 soldiers to 500. He estimated that the communist New People's Army (NPA) in the province had 200 fighters.

"When we send more forces, definitely there would be clashes," the AFP chief said. "To ensure quiet before because they (NPA) had no weapons."

AFP Chief of Staff, Gen. Alexander Panaligan said in a letter to Masbate Governor Francisco "Isko" Comiso because of the "improved" security situation in the island. He added that the AFP is not only to eliminate NPA guerrilla forces in the area.

Gov't, MILF reach deal on ancestral homeland

By Joseph A. Dela Cruz
In Mindanao, conflict-wed.
The agreement, while crucial for the resumption of normal peace talks, did not guarantee the end of a seven-decade conflict that has killed 120,000 people and displaced two million in Mindanao.

"We have finally ended all the remaining issues on ancestral domains," said President Arroyo, who said the deal was signed at a one-day meeting mediated by the Malaysian government.

"It was a tough meeting. The

deal better will be fought on the next level where we start talking on the political horizon to resolve the conflict. But, at least we have finished the ancestral domain issues. We can now move on to formal negotiations."

The deal, however, did not end the hostilities at the head of the government's peace panel, said "Justice Dela Cruz."

President Arroyo's peace panel and the MILF agreed to drop the word "brotherhood" from the deal, a move that was seen as a sign of goodwill.

MET TATHIONE

The trusted and leading Glutathione
brand in the market today.

Now, more than ever, you have to be discriminating
in your choice of Glutathione supplement.

Most of those flooding the market are in the
un-reduced form and, worse, fall short of the right
amount of Glutathione to be able to provide any
substantial therapeutic value.

MET TATHIONE, on the other hand, is 100% premium-
grade Reduced Glutathione imported from Japan.

Reduced Glutathione doesn't mean 'less' or 'inferior'.
It is in fact the scientific term used by authoritative
dermatologists and medical practitioners to describe
the highest grade and safest form of Glutathione.

According to the Woodlands Healing Research
Center in Philadelphia, USA: "Glutathione must
be in the reduced form to work properly. The
un-reduced form is much cheaper and isn't
metabolically active." (Source: woodlands.com)

How much Glutathione is enough?

In the case of un-reduced Glutathione, any dosage
cannot compensate for its inherent weakness, or
the fact that it isn't easily metabolized by the body.

On the other hand, each 400mg capsule of
MET TATHIONE is a concentrated and more
potent dose which contains 350mg of
premium-grade Reduced Glutathione, 25mg
of Alpha Lipoic Acid (a natural antioxidant),
and 125mg of Sodium Ascorbate (natural
Vitamin C).

Together, they help detoxify the body,
strengthen the immune system, delay aging,
boost sexual potency, prevent skin allergies
and stress-related diseases, plus decrease
the production of melanin to whiten skin.

Trust only MET TATHIONE

AN APPEAL TO THE PRESIDENT

17 July 2008

HER EXCELLENCY PRESIDENT GLORIA MACAPAGAL ARROYO

Malacañang Palace, Manila

Dear Madame President,

As the outset, we would like to express our deepest sympathy to the bereaved families of the hundreds of passengers who became victims of the tragedy that befell upon the MV "Princess of the Stars" of Sulpicio Lines, Inc. at the height of the storm "Frank". It is understandable that living family members in that sad tragedy is truly emotionally overwhelming to the point that knee-jerk reactions by the concerned authorities is driven by what may be perceived as the popular demand, rather than a prudent and rational response from these maritime industry governing bodies. We all eagerly await the results of an investigation that Government investigating bodies conduct so that the corresponding sanctions and penalties are imposed on the responsible parties.

The suspension of operations of all Sulpicio Lines, Inc. passenger/cargo ferry vessels may have seemed to suppress this monumental grief, but consequently it is taking its toll on the industry affecting not only the passenger and cargo sectors but also the other shipping operators in the inter-island transport chain. The emerging negative impact of the suspension of operations of a major maritime industry organization is now presenting an economic backfire on our numerous medium to smaller shipping companies serving the inter-island feeder routes. It is more than likely that this backlog will multiply and affect the national economy as the suspension continues with no clear direction in sight.

It is our understanding that these suspended vessels of Sulpicio Lines, Inc. have all undergone re-inspections and were re-surveyed by the Maritime Industry Authority and any deficiencies found were minor and already rectified so that these vessels can be considered seaworthy. It is quite appalling that while only one ship figured in the accident, the operation of the entire ferry fleet of Sulpicio Lines, Inc. is being suspended. There appears to be no further legal and factual bases to suspend its operations indefinitely and aggravate the economic adversities in the shipping sector.

Unknown to the general public, the shipping industry is the most regulated transport sector in the country. Every move we undertake is subject to Government intervention, restrictions, regulations, and fees. Between the Manila and the Philippine Coast Guard, there is every opportunity for them to inspect and apprehend our vessels for the most insignificant deficiency. In spite of this, it is sad to realize that while the shipping industry has notably improved due to our substantial investments and sacrifices, the Government has done nothing to help the shipping sector ease our financial burden to offer these services.

We are now further alarmed at the reports that the Government is considering taking over the management of the Sulpicio Lines, Inc. We respectfully submit that it would be an act of deprivation of property without due process of law which violates the Bill of Rights under our Constitution, not unlike that during Martial Law. While the Constitution provides for a "takeover power" under Article XII, Section 17 and implemented under Section 24 of the Domestic Shipping Act, there must be a national emergency before the State may temporarily take over or direct the operations of any vessel engaged in domestic trade and commerce. We honestly believe there is no cogent reason for the Government to take over the operations of Sulpicio Lines, Inc. Certainly, the sinking of the MV "Princess of the Stars", in tragic as it is, does not qualify to be such a national emergency. Furthermore, the said takeover power can be exercised only if Congress grants emergency powers.

Placing Sulpicio Lines, Inc. under new management is therefore not a credible solution to prevent more sea disasters, and will definitely not alleviate the increasing sea transport backlog. This move to take over Sulpicio Lines, Inc. will all the more demoralize all the players in the shipping industry burdened already with skyrocketing prices for fuel, steel, and other related expenses.

Hence, in the light of all the foregoing, we humbly pray that Your Excellency will recall the suspension order on the ferry operations of Sulpicio Lines, Inc. and allow it to resume its operations sooner so that all vessels in the feeder routes would no longer be adversely affected and may instead continue to serve the public safely and efficiently.

Very respectfully yours,

Villagers remember antimining leader

By Nita Catherine Gallego
 San Francisco, Ilocos Norte

EVERY MORNING, Julian Rodriguez, 67, sweeps the flowers around the bust of Amelio Mares which was built on the exact spot here in Barangay Sagapan in San Francisco town in Ilocos Norte province where he was killed on Oct. 3, 2000.

Perhaps there is a house about 30 meters away from where Amelio was shot dead. Each night, also the owner fails to light the lamp that would cast a glow at the sculptured bust of the town founder who was gunned down after leading a protest of 150 residents against the nickel exploration project of Sibuyan Nickel Development Corp. (SINDEC) in the area.

Asked why the caret for the town, he said, a colleague of a relative of the Ilocos Norte Agribusiness Marketing Movement (INAM), said "I just didn't want to do it."

But today, Amelio was still remembered by the people here. He was the first to lead the people's struggle to stop mining. Today, he is still remembered by the people here. He was the first to lead the people's struggle to stop mining.

it is bridges as big as 100, 150, 200, and among the finest of their kind in the series.

The Game 2 victory, which came closer after the team's management saw basic physical Lee Banno into Tuesday night, put the Kings opposite mouthwatering, exciting Red Bull in an expected high-profile series that means everything.

The management of Phillips-Dup responded this month decided to seek its largest after Roberts reported its first losses.

In the second game, Coca-Cola stayed alive and fought a nail-biting playoff against Magnolia for the last available berth with a 91-89 victory.

Parents of priest's sex victims to confront Pope

SYDNEY—A SCANDAL over sex abuse by priests which has partly overshadowed Pope Benedict XVI's visit to Australia intensified on Wednesday after the parents of two victims said they planned to confront him.

The Pope has said he will apologize to those abused by predatory priests during his visit to Australia for World Youth Day this week, which has attracted an estimated 15,000 pilgrims from around the world.

But the father of two girls abused by a Melbourne priest, one of whom committed suicide, said he and his wife would travel back to Australia from France for a confrontation.

"I'll accept an apology if the Pope will, unconditionally embrace the notion of begging forgiveness from victims and recognizing them in every way possible," Anthony Foster said the Australian Broadcasting Corp. while on the flight to help victims "have a reasonable life."

Foster said he planned to make a public statement when he arrived and would demand a response from

Pope Benedict XVI (left) with a local at the Melbourne Study Centre in Sydney, Australia, on Wednesday.

the Pope and the head of the Roman Catholic Church in Australia, Cardinal George Pell.

He said he hoped the Pope would meet him, to hear his demands for the church to adopt a new approach to the victims of abuse.

"I should not have to try to see them. They should be coming to us to tell us the truth," he said.

Foster's daughter Emma conceived outside this year aged 16, after struggling to deal with abuse by a priest while she was at

primary school.

But sister Kate was also abused and tried to commit suicide in her teens before being left brain-damaged and on long-term psychiatric drugs, sister said.

The priest involved, Father Kevin O'Shaughnessy, died in 1997 after serving time in jail for multiple sex offenses but the fathers had to fight an eight-year legal battle for compensation from the church.

World Youth Day coordinator Bishop Anthony Fisher said he expects more people were traveling on the papal apostrophe of World Youth Day "rather than traveling casually as a few people are doing on old records."

But he said described the story of Emma Foster as "very, very sad," saying he apologized to her and her family in 2006.

"I want to see her parents. We should have seen financial help. We should have seen something," he said.

Australian bishops issued an apology for past abuses in 2002 and 2003 but said paid compensation to the issue would be "a welcome contribution." The Pope made a historic apology for the actions of child-abusing clergy in April during a visit to the Vatican, saying the church also faces a long-running sex scandal. AFP

Dustin Antolin's putting stroke in the back nine allowed three others in his team the lead even as Digby Bray Muzzy, Alvin Pineda, Leo Sandoval Jr. and Alexander Olivares (left to right) played in the Philippine Open Golf Championships here.

Putting up its own men's 10th season, Antolin, the 19-year-old Antolin was through the first six holes of the Oak Glen course of the event. About 100 yards out for his second shot, he was in the middle of the fairway, then he hit the ball into the hole.

Antolin was born in the Philippines, but he moved to the United States when he was 10. He is now a resident of the Philippines.

The 150-150, 220-pounder has made good use of his hands while the much smaller Pineda applied his intense hitting on the first hole. Pineda, who is 5'10" tall, 150 pounds, is a left-handed golfer. He is currently in the middle of the first round.

A new player emerged for the 11th round. Pineda was in the middle of the first round, but he was not in the middle of the first round.

Olivares, 18, the daughter of former national tennis player who played in the lower division last year.

Competing in Class B of the Junior World tournament, checks here put him in a good position to win the tournament.

GDAP launches 'Buy Here, Buy Here' campaign

The GOLF DEVELOPMENT ASSOCIATION of the Philippines (GDAP) has launched the "Buy Here, Buy Here" campaign aimed at maintaining the high quality of golf equipment and encouraging golfers to buy only from licensed dealers.

The move is seen as a solution to the problem of counterfeit golf equipment and the illegal practice of parallel importation—buying counterfeit goods and selling them locally without the authorization of the trademark holder.

"As a distributor, we need that our customers buy our products," said GDAP president Dr. Jose Pineda.

The campaign hopes that buyers will get high-quality golf equipment with excellent after-sales service.

A local association comprising of golf equipment and golf accessories, GDAP has already done steps to implement the campaign through golf communities and information dissemination.

Ready for the big day

By Angelo Que, as told to Patrick Futral Jones

IT IS NOW THE TUESDAY OF THE Open Championship week and the crowds are getting bigger and bigger. At noon when I reached the golf course, there were around 20,000 people there already. Unbelievable here by this movement in it really is the biggest golf tournament in the world. I am so glad to be here and be a part of it.

On the practice range before teeing off, I noticed I was still hitting my driver a bit too high so I spoke with the equipment representative from Callaway and they managed to build me a new driver with a

much lower loft.

I teed it up and found that the ball flight with that one was much better suited to the windy conditions. Here I feel I have all the right equipment I needed to be coming to grips with the shots I can play.

I teed off at 2 p.m. and it was surprisingly calm and warm, especially considering it was fairly cold and overcast in the morning.

During the round, the wind did pick up considerably, which was not what I needed because I wanted to see the changing winds in the afternoon.

There were some slight differences from the morning wind direction, but I realize it isn't so much that I need to worry about but rather

griping the strength of the winds.

It was important that I played in the afternoon because my tee time on Thursday is at 4:14 p.m. I would regret not the chance of playing in late in the day as well.

This evening, we had some people over in the house we are staying at, including David Dufresne from the team. They had some great stories.

It was a really nice evening and we had a lot of laughs and some great food.

It is such a benefit to have friends and colleagues and, of course, my wife Tracy here with me to help me stay relaxed and comfortable.

One more day of practice and preparation until the big day. I can't wait until Thursday!

Rodriguez bows out of match play

CYN RODRIGUEZ GOT THE last shot in the final round of match play in the United States Open. Rodriguez, 44, 5, in the WPGA (Women's Professional Golf Association) 82nd National Junior Championship in Georgia, Indian Wells.

It was a sorry loss for the 16-year-old Rodriguez, who finished just short in the stroke play elimination with a 74 only to lose to a better-ranked player who barely made it to the tournament proper with an 88.

The setback is expected to magnify after the seven winners of the Pacific Northwest Child News Center Women's Junior Championship as she competes in the coming weeks.

Down in California, Mike Kinsman fell short of his title bid, finishing just second, with Bryan Kim of Colorado in the San Diego Country Amateur held by Brady Beagle.

A second-round bogey on the par-3 15th derailed Rodriguez's charge as he ran out of holes

and settled for an even par 74 and a 36-hole aggregate of 152, three shots behind Beagle, who finished with a 71 and a 139. Kim also made a 72.

The other 67th runner, Audrey Francisco and Frances Ibarra finished tied for 80th with identical 74s and 140s while Sherry Roberts wound up joint 100th with 153 after a 76.

Shirazi sauce is a may-based condiment to cooking ingredients. Put it on ribs, steaks and going all the way, traditionally used for chicken recipes and barbecue sandwiches. It's also versatile enough to be applied to a wide variety of dishes. Kneer Thacker's sauce has a unique mix of warm spices: onion, garlic and tomato that will definitely addkick surprising new flavors from even the most banal recipes.
